Steps for downloading to your iOS device:

1. After clicking the "download" button, a message should pop up stating, "Do you want to download "737321.acsm?" (The doc ID number will be different depending on what ebook you download).

2. Click "download" and a small arrow will appear at the top right-hand corner of the screen. Click on the arrow, then click on the document listed.

3. This will open a screen displaying the file ID, "ACSM files", and the file size. From here, click the arrow in the upper right-hand corner again and if ADE is not listed in the apps, scroll over to "More" and then click "Copy to Digital Editions."

4. You will then be prompted to select "Open in Digital Editions." From here your ebook will launch in the ADE app.

You may now read your book OFFLINE ! Congratulations !!
